Borneo ~ An Overview

“When I was right in the middle of Borneo, you thought you were in a different world.” ~ David Attenborough

Borneo is an amalgam of bio-diversity that blends uncharted forests filled with yet-to-be discovered species, a plethora of endemic trees, orchids and other flora, and animals like you’ve never seen before anywhere. Since 1996, reportedly 361 new animal and plant species have been identified, supporting the on-going efforts of international and local scientists to continue their explorations into the seven distinct eco-regions that make up the third largest island in the world (287,000 square miles). Currently, there are 288 mammals, 394 freshwater fish species, 100 amphibian species, 15,000 flowering plant species, 3,000 tree species and 420 resident bird species. To put in another perspective, 40% of the world’s palm species, 50% of the world’s dipterocarp trees and 20% of the world’s snakes are found only in Borneo. And for orchid lovers, this is a magical paradise of over 1,500 species in Sabah alone. Also, the world’s largest orchid, the tiger orchid, the world’s largest single flower, *Rafflesia arnoldii*, and the world’s largest composite flowers, the giant voodoo lily – are all found here. The island provides the only natural habitat for the endangered orangutan, and is a refuge for forest species, such as Asian elephant, Sumatran rhinoceros and Borneo clouded leopard. From the waters of the Kinabatangan River, to the primeval forests of Danum Valley, the romance and mystery of Borneo awaits you.

DAY 4 ~ SUNDAY ~ OCTOBER 13
KUALA LUMPUR/SANDAKAN ~ LABUK BAY PROBOSCIS MONKEY SANCTUARY
Your morning flight takes you to Sandakan, located on the east coast of Sabah. Upon arrival, head to Labuk Bay Proboscis Monkey Sanctuary, just a short drive from Sandakan located among the mangrove forests of Samawang. As the name suggests, this is the place to see one of the most distinctive and unusual inhabitants of Borneo - the proboscis monkey. This privately-owned sanctuary is within an Oil Palm estate, providing a chance to observe this unique primate at a very close range. The remarkable males sport big dangling noses, reddish flat-top hairstyles, white tails and markings, and pot bellies. The females on the other hand, are much smaller and have up-turned noses.

You will be staying near the Sepilok Orangutan Rehabilitation center. This endangered species is only found in Borneo and northern Sumatra – and is the only representative of the great apes outside central Africa. Orangutans live in forests where they build a new nest out of twigs and small branches daily. Their diet includes fruits, bark, leaves, durians, figs, rambutans and insects. The orangutan can live up to 30 years and the female can have three to four offspring in her lifetime. The youngsters learn to find their own food, build their own nest and move around by the time they are six or seven years old. The Sepilok Orangutan Rehabilitation Center prides itself on returning orphaned and captive orangutans to the wild. Other protected animals brought to Sepilok include Malay sun bears, baby elephants, wild cats and even crocodiles.

DAY 5 ~ MONDAY ~ OCTOBER 14
SANDAKAN~SEPILOK ORANGUTAN REHABILITATION CENTER/SUN BEAR CONVERSATION CENTER/SUKAU

Your first stop this morning is a visit to the Sepilok Orangutan Rehabilitation Center. Here, the orangutans undergo a three-step process to learn to integrate socially and independently with the wild population of the forest. First, the animals are admitted to the Sepilok clinic for two months. This is designed to eliminate any exposure of communicable diseases for both orangutans and humans. Afterwards, wildlife rangers teach the apes the necessary survival skills like foraging for food. During the daily feeding time, you’ll observe the orangutans as they playfully interact with each other and their environment. At the age of seven, the wildlife staff continues to supply the orangutans with fruits and milk, but this food is only a dietary supplement. The primates have already begun to look for their own food, resulting in fewer orangutans returning to Sepilok. Those who do come, swing in using branches and vines, creating an excellent opportunity to observe the orangutan in its natural habitat.

The primates have already begun to look for their own food, resulting in fewer orangutans returning to Sepilok. Those who do come swing in using branches and vines, creating an excellent opportunity to observe the orangutan in its natural habitat. Following lunch at the center headquarters, proceed to the playground area of the young orangutan. After you see where the young orangutans are fed, walk to another area reserved for the feeding of the semi-wild and wild orangutans.

Next, visit another endangered mammal – the Bornean sun bear (*Malayan honey bear*) at the Bornean Sun Bear Conservation Centre at Sepilok. Here, rescued sun bears will be housed and cared for in a natural setting with the goal to re-release them back into a healthy forest. The sun bear is the smallest, most arboreal and least known of the bear family.

Afterward, proceed to Sukau village. Relax by the river before embarking on a boat excursion along, Kinabatangan, Sabah's longest river, with an opportunity to view wildlife and birds in the virgin mangrove and rainforest habitat. Search for some of the primate species, including proboscis monkeys as they settle down on treetops.

*Sukau Rainforest Lodge nestles on the banks of one of Borneo's most important waterways, the Kinabatangan River, home to many of Borneo's magnificent wildlife. The Lodge offers the rare comfort and luxury in the midst of the Rainforest whilst retaining an Eco-Lodge ethos, the delicate balance of true sustainability. The rooms are modern with a private bathroom.*

DAY 6 ~ TUESDAY ~ OCTOBER 15
Ox Bow Lake
You'll wake up to the raucous calls of gibbons and hornbills and then take an early morning river cruise on the Kinabatangan River en route to Ox Bow Lake to observe wildlife and experience the early morning ambience of the longest river in Sabah. Oxbow Lake is a crescent shaped body of water lying alongside the Kinabatangan River. The lake separated from the main river as erosion and deposits of soil changed the river’s course. The lake is ideal for bird watching, and sometimes orangutans are spotted in this quiet and serene area.

Later in the morning, enjoy a special treat sharing tea at one of the village houses. This is an opportunity to interact with the host and try your hand at playing a local musical instrument. After a tour of the village and a short jungle walk along the lake, return to the lodge for lunch. Later in the afternoon depart on another river cruise to observe the flora and fauna of the area. Overnight at the SUKAU RAINFOREST LODGE. (B,L,D)

DAY 7 ~ WEDNESDAY ~ OCTOBER 16
Sukau
The evenings and early mornings can be a magical time for viewing wildlife. If the weather cooperates, you may go on through a mystical channel to a wonderful oxbow lake teeming with bird activity. Along the way you may see the fierce Stork-billed Kingfisher, the Oriental Darter (“snake bird”) and Gray-headed Fish-Eagles around the lake. Various reptiles may perch silently in the trees and you could see them with our discerning eyes. The feeling or tranquility here is exquisite!

In the afternoon, you will again have another wildlife river cruise and, after dinner, there will be a night safari cruise to try and spot nocturnal mammals, crocodiles and birds. Overnight at the SUKAU RAINFOREST LODGE. (B,L,D)
DAY 8 ~ THURSDAY ~ OCTOBER 17
SUKAU/DANUM VALLEY ~BORNEO RAINFOREST LODGE

Your drive takes you to Borneo Rainforest Lodge, located in Sabah’s largest protected lowland forest, Danum Valley Conservation Area, comprised of 108,230 acres of pristine virgin rain forest. The Dipterocarp forest found in Borneo is considered to be the world’s tallest and oldest, having existed for over 100 million years. It is also one of world’s richest areas for species variation with more than 200 tree species per 1,000 sq. feet! Within this paradise is a lodge designed by naturalists with magnificent views of forest, mountains and the Danum River just below.

Although very difficult to spot, the conservation area nonetheless shelters more than 270 species of birds and 109 species of mammals, including Asian elephant, orangutan, five species of deer, and Bornean rarities such as Sumatran rhinoceros, clouded leopard, and the impressive Bulwer’s pheasant. Danum Valley supports one of the largest remaining populations of wild orangutans. Although they are elusive, you will have a good chance of seeing them under the guidance of the lodge’s expert trackers. Do remember that in spite of the diversity and large numbers of animals, most are extremely well hidden. But you will nevertheless see an incredible diversity of flora and fauna, including some of the world’s largest butterflies and moths. It’s impossible to say which animals you encounter but at some time during your visit, you’re sure to happen upon a delicate mouse deer or a snorting group of bearded pigs, or awaken to the haunting call of Bornean gibbons and glimpse giant flying squirrels gliding through the canopy.

The lodge itself has 28 twin-bedded rooms in 23 bungalows made of Borneo’s famous hardwoods. All have a balcony and en suite facilities. The Borneo Rainforest Lodge is the perfect place to enjoy this beautiful environment.

Overnight at the BORNEO RAINFOREST LODGE. (B,L,D)

Climb 40 minutes to a magnificent lookout point for a bird’s eye view over the Danum Valley and the Borneo lowland forest, and then return to your lodge for lunch. Optional: Water tubing for an hour in the Danum River or trekking along the Segama River. In the evening, if weather permits, enjoy a night walk around the lodge in search of nocturnal animals.

**DAY 11 ~ MONDAY ~ OCTOBER 20**

**DANUM VALLEY/LAHAD DATU/KOTA KINABALU**

After breakfast and a morning at leisure, drive to Lahad Datu for your flight to Kota Kinabalu, the capital of Sabah. The original town was razed during the Second World War and a new, carefully planned town was built in its place. Sabah, Malaysia's second largest state is mountainous with lush tropical forests. It is known as the "Land below the Wind" because it lies below the typhoon belt.

As early as 600 AD, Chinese traders brought porcelain to Sabah to trade for local spices and bird’s nests. Although trade settlements were established, mass Chinese migration to Sabah only started in the 1880s after the formation of the British North Borneo Chartered Company. Today, Chinese make up the second largest ethnic group in Sabah. The largest indigenous group in Sabah is the Dunsun/Kadazan, followed by the Bajaus and the Muruts.

*Set on Kota Kinabalu’s infamous waterfront, the Kota Kinabalu Marriott Hotel offers stunning panoramic views of the South China Sea and you’re surrounded by numerous culinary and entertainment options for the evening. Rooms offer rain showers, soft and plush bedding, air conditioning, and windows providing ample amounts of natural light.*

Overnight at the KOTA KINABALU MARRIOTT HOTEL. (B,L)

---

**DAY 12 ~ TUESDAY ~ OCTOBER 21**

**KOTA KINABALU/KUCHING**

Return to the airport for your flight to Kuching, the capital and cultural center of the state of Sarawak, nestled in the northern part of Borneo. This afternoon, enjoy a cruise along the Sarawak River, a relaxing way to view the various phases of the city, retracing the trip James Brooke made when he first arrived in Sarawak. Take in the sights of the Waterfront, Brooke Dockyard, the 100-year old Malay Kampung, Fort Magherita, the manicured gardens of Astana, the home of the government of Sarawak, Square Tower and the houses and mansions of Kuching’s affluent society. The living scenery gives you a snapshot of the history and lifestyles of Kuching.

*Your deluxe hotel is situated in the heart of the city and overlooks the Kuching River, dotted with sampans and lined with a colorful boardwalk where local families promenade after dinner. Your afternoon is at leisure to relax or shop around.*

Overnight at the HILTON KUCHING. (B, L, D)

DAY 13 ~ WEDNESDAY ~ OCTOBER 22
KUCHING/SEMENGGOH
After breakfast, depart for the Semenggoh Orangutan Rehabilitation Center, located a short drive from the center of the city. Observe the feeding of orangutans that have been rescued from captivity and are being trained to survive independently and ultimately be returned to the forest. Spot their delicate nests; watch their skillful movements on the tree tops and their interesting behavior during feeding time. The guide will also narrate to you the behavior and characteristics of this special primate.

After lunch, experience the beauty of the local multi-racial community and explore the sites of Kuching, taking you back to the era of the White Rajahs to the present day. Visit the Old Court House, dating back to 1868. Explore the Textile Museum, displaying some superb examples of traditional Sarawakian textiles, including Malay songket (gold brocade cloth), as well as the hats, mats, belts, basketwork, beadwork, silverwork, bark-work, bangles and ceremonial headdresses created by the Iban, Bidayuh and Penan and other Dayak groups. Sitting on a foothill and commanding the view over the river and Main Bazaar, the ornately decorated Tua Pek Kong Temple, which was one of the few buildings that survived the 1884 Great Fire of Kuching, is said to have the best Feng Shui location in the city. Finally, visit the Brooke Gallery. In a joint project with the Sarawak Museum, the Gallery highlights the people, places and history behind the birth and development of Sarawak during the Brooke era.
Overnight at the HILTON KUCHING. (B, L, D)

DAY 14 ~ THURSDAY ~ OCTOBER 23
BAKO NATIONAL PARK
Your short drive takes you to Bako Village. By fast boat this morning, you will cross over to Bako National Park, the best location in Sarawak to see wildlife. Set in the delta northeast of Kuching, Bako National Park gives a glimpse of a tropical coastal ecosystem that once surrounded most of the equatorial coasts of the world. Lush mangroves give way to soaring rainforest and short desert-like scrub similar to the outback of Australia. You will also see carnivorous pitcher plants. Nearly 20 miles of walking tracks weave throughout Bako, Borneo’s oldest national park.

The park has been called one of Borneo’s best short-visit wildlife experiences. At Telok Assam, park headquarters, hornbills are common in the tree tops, while large monitor lizards scavenge the forest floor and wild boar come around to be fed. Three species of primates are a guarantee – long-tailed macaques, silver-leaf monkeys, and the proboscis monkey. This is the best place in the wild to see the proboscis monkey (other than Sukau River). Boardwalks through the mangroves provide an excellent opportunity for you to examine one of the most endangered habitat-types in the world at close hand. In Bako, all three red, black and white mangroves are found. As you might imagine in the varied habitats that Bako offers, bird watching is excellent with over 200 species of land and water birds. Return to Kuching in the afternoon.

Tonight, enjoy a farewell dinner and reminisce with your fellow travelers about all the amazing sites you’ve seen on this trip.

In the 1950s, The Fullerton Building became an unofficial public monument which stood out of the City’s Skyline as the most prominent feature of the waterfront. On its rooftop stood the lighthouse, whose beacon guided all ships approaching the harbor, and in time, it became the symbol of Singapore, appearing in every postcard. In 1997 it was purchased by a Hong Kong company and began its transformation into the fabulous hotel it now is. The Fullerton Hotel Singapore was officially opened by then Prime Minister Goh Chok Tong on January 1, 2001 and has welcomed many guests since then, offering excellent service and facilities from which to explore dynamic Singapore.

**TRANSFERS:** Roundtrip airport transfers are included in the tour for guests arriving on group flights. If travelers make their own air arrangements, they will be subject to extra transfer fees.

**TRIP DETAILS**

**ACCOMMODATIONS:** You will marvel at the wonderful accommodations provided throughout your tour. All rooms have private bathroom facilities and air conditioning and/or fans. All rates are based on double occupancy. Most rooms are twin-bedded, but king-size beds are occasionally available and should be requested in advance. Accommodations listed in this itinerary are correct at time of writing, but on rare occasions may be substituted for a different property of comparable quality.

**MEALS:** All meals as specified in the itinerary. Please notify us if you have special dietary needs or requests, and we will do our best to accommodate.

**INOCCULATIONS:** When it comes to vaccination and disease prevention, we suggest that travelers first review information provided by the U.S. Centers for Disease Control and Prevention ([www.cdc.gov/travel](http://www.cdc.gov/travel)) and then review those details with their personal physicians.

**WATER:** It is always advisable to drink bottled and/or filtered water when traveling overseas. Safe drinking water will be provided to travelers free of charge in the vehicles and during meals.

**BAGGAGE:** On average, international flights from the USA allow one piece of checked luggage, each not exceeding 50 pounds; however, we always recommend that you check your airline’s policy just before departure, as luggage limitations are always subject to change. Despite this weight allowance, we always suggest guests travel light as internal flights within Malaysia have a weight limit of 44 pounds and 15 pounds for checked and carry-on baggage, respectively.
LEVEL OF ACTIVITY: To enjoy your travel experience, participants must be in good physical and mental health, and be able to keep up with the pace of the group. Program participants requiring extraordinary assistance must be accompanied by someone who can and will provide all required assistance. To help you choose the trip best suited for you and to ensure the smooth and efficient operation of our trip, we describe this trip as: **Active**: Involves long distances and/or extensive movement, walking, and/or stair-climbing.

Please indicate in the chart below whether or not you prefer to receive paperless correspondence from us – all you need to do is put a check under the “green” symbol for yes or a check under the “NO” for no.

Simply fax to 718-204-4726 or email your responses to reservations@classicescapes.com!
