DAY 2 ~ WEDNESDAY ~ FEBRUARY 26
GUAYAQUIL/GALAPAGOS ISLANDS: SAN CRISTOBAL ISLAND~CERRO COLORADO
In the morning you will be escorted at the airport for your 2.5 hour flight to San Cristobal. Upon arrival on the island you will be met by your naturalist guide, and taken for a short bus ride to the pier to board your vessel, the M/Y Coral I or II. From both the sea and the shore, the Galapagos Islands seem to be a glimpse into the world as it was millions of years ago, before humans walked the Earth. From the landscapes shaped by the whims of nature, from volcanic faults to mossy overgrowths, thick jungles, and glittering, endless expanses of coast, this is perhaps the only place to experience so many of the world's untouched
beauties. Due to their long history of isolation from humans, both land and sea animals remain virtually fearless and unaffected by visitors. This is the land that Charles Darwin visited as a naturalist on board the HMS Beagle, which was bound on a long scientific survey of South America and the South Seas (1831-36). His zoological and geological discoveries during the voyage resulted in numerous important publications, and formed the basis of his theories on evolution.

For the next eight days, you will bear witness to our planet's most captivating wildlife; for example, their namesake, the 600-pound tortoises, which in the Spanish language, are called Galápagos. You'll be mesmerized by the awe-inspiring landscapes and misty volcanic peaks. The underwater world is equally enchanting. The Motor Yacht Coral II is decorated with teakwood and has a modern design. Its eleven spacious cabins are decorated with a marine motif and all have private facilities. The dining room is artfully decorated and the sun decks of the yacht also provide shaded areas. After expert naturalists share their knowledge of the area, you will no longer be able to view your trip as a mere visit, but as a cherished experience.

After a welcome briefing and safety drill, a delicious buffet lunch is served. Travel by bus to the highlands to visit Centro de Crianza Jacinto Gordillo (La Galapaguea Cerro Colorado). Here, the the National Park has established a breeding program for the giant land tortoises you will encounter in their natural habitat. Learn about their origin, evolution and threats by introduced animals at the information center for visitors. Along the trail, you will find the San Cristobal (Chatham) mockingbird and Calandrinia plant, both endemic to this island. Join fellow travelers this evening for a briefing followed by our Captain’s welcome cocktail party and dinner prepared by our well-trained chefs.

Overnight aboard the M/Y CORAL I or II. (B,L,D)

**DAY 3 ~ THURSDAY ~ FEBRUARY 27**

**GALAPAGOS ISLANDS: SAN CRISTOBAL ISLAND~Cerro Brujo & Punta Pitt**

Cruise by Zodiac along the shores of tuff-stone layers will bring you to Cerro Brujo's white coralline beach (wet landing). You’ll visit a lagoon where seabirds like Blue-footed, Red-footed and Nazca Boobies and Great Frigatebirds can be seen, along with some shore birds. Highlights ashore include the Chatham (San Cristobal) Mockingbird, Chatham lava lizard; both species are endemic to this island and seen nowhere else in Galapagos. You may also spot Yellow Warblers, Galapagos Flycatchers, and with luck, a Vermillion Flycatcher (primitive subspecies to San Cristobal).

This afternoon disembark (wet landing) on the eastern tip of the island and visit Punta Pitt where you’ll be met by a Sea Lion colony. The impressive view is well worth the intense hike up the volcanic tuff. In addition to the Nazca & Blue-footed boobies, this island is home to the rarer Red-footed booby – the least seen of the bunch. It's also the home of the Chatham Mockingbird, only found here on San Cristobal Island. Overnight aboard the M/Y CORAL I or II. (B,L,D)
DAY 4 ~ FRIDAY ~ FEBRUARY 28
GALAPAGOS ISLANDS: ESPANOLA ISLAND ~ PUNTA SUAREZ/GARDNER BAY

Today is devoted to Espanola Island, or Hood Island as it is otherwise known, the most southerly in the archipelago. The morning’s visit is to Punta Suarez, one of the most outstanding wildlife areas of the archipelago, with a long list of species found along its cliffs and sand or pebble beaches. In addition to five species of nesting seabirds there are the curious and bold mockingbirds, Galapagos Doves and Galapagos Hawks. Several types of reptiles, including the brilliantly-colored marine iguana and the oversized lava lizard, are unique to this island. When heavy swells are running, Punta Suarez is also the site of a spectacular blowhole, with thundering spray shooting 30 yards into the air.

In the afternoon visit Gardner Bay located on the eastern shore and featuring a magnificent beach. This beach is frequented by a transient colony of Galapagos Sea Lions, and is a major nesting site for marine turtles. You can snorkel around the small islets nearby giving you the opportunity to see fish, turtles and on occasion you’ll see a passing shark. On a trail leading to the western tip of the island, you’ll pass the only nesting site in the Galapagos of the Waved Albatross; these enormous birds are adorned with a wingspan of 7 to 8 feet. They nest here from April to December and represent the majority of the world’s population of this species.

Overnight aboard the M/Y CORAL I OR CORAL II. (B,L,D)

DAY 5 ~ SATURDAY ~ FEBRUARY 29
GALAPAGOS ISLANDS: FLOREANA ISLAND ~ CORMORANT POINT/ CHAMPION ISLET/ POST OFFICE BAY

This morning you will disembark to Punta Cormorant at an olivine-crystal beach for an easy walk that includes a brackish water lagoon where bird species like Greater flamingos, Pintail Ducks, Common Stilts, herons, sandpipers and others may be observed. This outing also includes a white-sand beach where sea turtles come out at night for nesting (from December to May). You will have the opportunity for snorkeling or swimming around the pangas around Champion Islet, located just offshore Floreana Island. Enjoy great Zodiac rides or snorkeling along a nice wall filled with a variety of marine wildlife like the endemic black striped salema, the blue lobster, long nose and coral hawkfish, sea horses, sea lions, and the red-lipped batfish.

Following lunch and a siesta, visit Post Office Bay, which historically is the location of a wooden barrel that was placed on the island in the 18th century by the crew of a whaling ship. It has been used since this time by mariners and tourists as a post office. The idea is to carry letters or postcards to their destination by hand. Apart from being the Post Office Barrel, this site was the landing area for some of the first colonists. Near Post Office Bay, you will explore the north shore of Floreana along narrow channels teeming with life. Rays, turtles and sea lions can be seen gently swimming next to your panga. After a wet landing and a short walk up to a volcanic cone, reach the Baroness’s Tower, from where the entire northern shore of the island can be seen. Learn more about the fascinating past of this island. Return to your ship for lunch.

Overnight aboard the M/Y CORAL I OR CORAL II. (B,L,D)
DAY 6 ~ SUNDAY ~ MARCH 1

**GALAPAGOS ISLANDS: SANTA CRUZ ISLAND~HIGHLANDS TORTOISE RESERVE/CHARLES DARWIN RESEARCH CENTER**

A morning bus ride brings you to the highlands of Santa Cruz Island for a special opportunity to view the island’s most famous reptile: the giant tortoise in their wild habitat. What a privilege to see an endangered species roving in this lush environment! Look for Vermilion Flycatcher and Darwin’s finches (most of them from the tree-finches group), particularly the famous Woodpecker Finch.

In the afternoon, visit the Charles Darwin Research Station. Scientists from all over the globe work at the station and conduct biological research from anatomy to zoology. Get your picture taken with the giant tortoises. Observe year-old tortoises and learn about the captive-breeding program. Overnight aboard the M/Y CORAL I OR CORAL II. (B,L,D)

DAY 7 ~ MONDAY ~ MARCH 2

**GALAPAGOS ISLANDS: SANTA CRUZ ISLAND~DRAGON HILL/BARTOLOME ISLAND**

The north shore of Santa Cruz Island hosts Cerro Dragón (Dragon Hill). A Zodiac ride among mangrove-lined islets allows the observation of the dramatic landscape and coastline, an area of amazing past volcanic activity. While exploring the nearby waters, various types of birds can be seen, such as boobies, frigates and pelicans. Quite commonly, the black lava will reveal the presence of marine iguanas. The navigation in shallow turquoise-colored water gives the chance to see marine turtles, rays and sharks. After a dry landing begin your walk that includes a brackish water lagoon frequented by Greater Flamingos, Common Stilts, Pintail Ducks and a variety of shore and lagoon birds. Further along the trail, head to Dragon Hill, which offers a beautiful view of the bay and the western area of the archipelago. This area is a natural nesting site of a fairly large number of land iguanas, which is constantly monitored and assisted by the Charles Darwin Research Station. The arid-zone vegetation can be a rewarding location for bird watching, where Darwin's finches, Galápagos Mockingbirds, the endemic Galápagos Flycatcher, and Yellow Warblers are regular sightings.

In the afternoon, disembark at Bartolome, a small rugged island off the eastern shore of Santiago, opposite Sullivan Bay. The area of Sullivan Bay, a cascade of lava punctuated at water’s edge with fine white sand, was formed by the flow from a nearby shield volcano that erupted at the turn of this century (the bay is named for James Sullivan, the second lieutenant aboard the HMS Beagle with Charles Darwin.) Together, Bartolome and Sullivan Bay evoke a lunar landscape of cones and craters in varying shades of deep chocolate and light brown, black, and gray. After a wet landing on a white coral-sand beach, traverse a lava field that flowed less than 100 years ago. This is a perfect place to see and feel the volcanic origin of the Galapagos. Once you land on the island, you will have a 30-minute climb to the summit of a once active volcano for a panoramic view which includes the guardian point of Pinnacle Rock, the eroded remnant of a lava cone composed of ashy particles. Down below, the water is crystal clear, and you can swim and snorkel with schools of fish. Galapagos Penguins can also be seen in this area. On the other side, you will find sea turtles and white-tipped sharks close to the shore. Overnight aboard the M/Y CORAL I OR CORAL II. (B,L,D)
DAY 8 ~TUESDAY ~ MARCH 3
GALAPAGOS ISLANDS: RABIDA ISLAND/SANTIAGO ISLAND ~ BUCCANEERS COVE/ESPUMILLA BEACH
Disembark at Rabida Island on a red-colored beach, due to the unusually high content of iron in the volcanic material. A gratifying stroll along the beach of this small island allows the observation of a large colony of sea lions, marine iguanas, mockingbirds, Yellow Warblers and several species of Darwin’s finches. Very close to the beach, hidden behind a strip of green saltbush, is a salt pond where at times Greater Flamingos migrate to; these spectacular birds feed on the brine shrimp found in this saline pond. From June to November pelicans nest in the surroundings. This is a great place to snorkel from the beach, both for beginners as well as for experienced snorkelers, due to the unique combination of underwater species and submarine landscapes. During navigation to your next destination, keep your eyes open for dolphins.

Enjoy a coastal exploration along the impressive cliffs of Buccaneer Cove. Learn about the history of Santiago Island, its relevance for the whalers, pirates and early researchers, including Darwin's epic voyage in 1835, and the conservation projects aimed at eradicating feral species (a fence stretched along the rocky outcrop is visible to save native plants from the once existing enormous goat population). Today the island is free of feral goats, and the cove is home to a large number of marine birds, sea lions and inter-tidal organisms. Enjoy fantastic natural formations such as the "Elephant Rock", "The Bishop" and an impressive natural cave. This is a great site for snorkeling too!

Espumilla beach is located in northern coast of Santiago Island in James Bay. During the last presence the El Niño phenomenon, one of the two lagoons in this site, underwent a process of sedimentation, thus causing the disappearance of a representative colony of flamingos. The beach is an important site for nesting marine turtle. You can also find a wide variety of Galapagos finches, marine iguanas, sea lions, fur seals, land and sea turtles, dolphins and sharks. With an abundance of marine life including octopi, moray eels, and sharks, snorkeling is highly recommended.

Overnight aboard the M/Y CORAL I OR CORAL II. (B,L,D)

DAY 9 ~ WEDNESDAY ~ MARCH 4

The breathtaking setting offers great photo opportunities and after two hours of traveling through the riveting Andean countryside, you will arrive at the province of Imbabura, known as the Ecuadorian Land of Lakes.

The Otavalo Craft Market is the most famous and picturesque in South America. While the main market is on Saturday’s, there’s always a mini market going on, no matter what day of the week one visits. Markets are meeting places for shopping, bargaining and chatter, while people of the region exchange local produce, animals, utensils, pots and pans or textiles. For visitors, the markets offer the possibility of approaching Ecuadorians at a more intimate level as you negotiate prices of a variety of woven goods, bags, hats, flutes or simply appreciate the skillful and generous people responsible for the elegance and beauty of the clothing and handicrafts. After a busy shopping day, there is nothing better than a delicious lunch at one of the local haciendas.

It is known for its cloister featuring mosaic tiles from Seville, Spain, and for its catacombs, which served as Lima’s cemetery through the colonial period.

DAY 11 ~ FRIDAY ~ MARCH 6
LIMA/CUSCO/URUBAMBA VALLEY~ PISAC MARKET
This morning you will begin your day with a flight to Cusco, where upon arrival you'll board your bus for your drive to Yucay which is located in the heart of the Urubamba Valley, the sacred valley of the Incas.

Your visit will be to the town of Pisac. A vital Inca road once snaked its way up the canyon that enters the Urubamba Valley at Pisac. The citadel, at the entrance to this gorge, now in ruins, controlled a route which connected the Inca Empire with Paucartambo, on the border of the eastern jungles. Set high above a valley floor patch worked by patterned fields and rimmed by vast terracing, the stonework and panoramas at Pisac's Inca citadel are magnificent. Terraces, water ducts and steps have been cut out of solid rock, and in the upper sector of the ruins, the main Sun Temple is equal to anything at Machu Picchu. Above the temple lie still more ruins, mostly unexcavated, and among the higher crevices and rocky overhangs several ancient burial sites are hidden. Pisac also offers a very colorful "Market Day" every Tuesday, Thursday and Sunday. Similar to Otavalo's market, you can purchase handcrafted jewelry and leather, beautiful woolens and ponchos, carpets and alpaca products.
You will be staying at the charming Aranwa Valley Hotel & Wellness, built on a 17th century colonial hacienda by the Vilcanota River, just one hour away from the city of Cusco and 30 minutes from Ollantaytambo train station. It has a total of 115 rooms equipped with all the modern amenities, surrounded by gardens and mountains. The hotel has a full-service spa. UNNO Spa is a unique wellness center that invites you to experience the best renovation treatments combining modern techniques with the ancient teachings of the Andean people. Free Wi-Fi is offered in all areas.
Overnight at ARANWA VALLEY HOTEL & WELLNESS. (B,L) wwwaranwahotelscom/en/sacred-valley/

**DAY 12 ~ SATURDAY ~ MARCH 7**
**URUBAMBA VALLEY~OLLANTAYTAMBO**
Explore Ollantaytambo this morning, a major Inca fortress and one of the few places where the Spaniards lost a major battle during the conquest. Ollantaytambo is a massive citadel which served as both a temple and a fortress. The Inca considered Ollantaytambo a temple rather than a fortress, but after their defeat, the Spanish called it a fortress and it has been referred to as such ever since. The temple area is at the top of the terracing. The stone used for these buildings was quarried from the mountainside three miles away and high above the opposite bank of the Rio Urubamba – transporting the blocks from the quarry to the site was a stupendous feat, as of yet, no one has been able to establish how it was accomplished.

Your afternoon is at leisure to enjoy the fabulous facilities of your hotel or sightsee on your own.
Overnight at ARANWA VALLEY HOTEL & WELLNESS. (B,L)

**DAY 13 ~ SUNDAY ~ MARCH 8**
**MACHU PICCHU**
Today you depart on one of South America's most scenic rail trips from Ollanta Station to the legendary "Lost City of the Incas," Machu Picchu. Your one-and-a-half-hour rail journey is filled with breathtaking sights, en route to this mountain-top sanctuary of the Incas (which was hidden from the world until 1911 when Yale archaeologist Hiram Bingham rediscovered it.) Machu Picchu straddles a high ridge, with sheer cliffs on three sides, and the Urubamba River curves around it and fills the canyon with its roar. In all directions, there are the Andean peaks covered in jungle green, a spectacular setting for these ancient ruins. There are temples, houses, terraces for growing crops that could be functional today and even gardens and a sacrificial altar. No one knows what happened to this civilization and why this city mysteriously disappeared, adding to the allure and spirituality of this incredible World Heritage site.
Once you step through the door of your home for the night, you will feel the magic of this place. The train station is only steps away, but your intimate 85-cottage hotel is a world apart. Surrounded by 12 secluded acres of exquisite beauty, a reverence for nature reins hand-in-hand with a commitment to indulging your every whim. Surrounded by spectacular cloud forest and considered to be a genetic bank due to its wealth of biodiversity, be sure to explore the orchid trail on the hotel grounds. It is the world’s largest native species orchid garden, with 372 species of native orchids. In addition, 154 bird species, 108 butterfly species, more than 200 species of trees, and a great variety of reptiles and mammals, including two spectacled bears, have been seen. The hotel offers activities that promote contact with nature and the local culture and implements projects for researching and conserving the local flora and fauna in cooperation with prestigious international institutions.

Your superior room is the perfect sanctuary for simple relaxation with luxurious bedding and an inviting dining area. Decorated with local crafts and eucalyptus beams, your room includes a room heater, a colonial style wardrobe, Andean slippers crafted from recycled materials, plus a complete set of environmentally friendly toiletries, all provided for your personal comfort. While here, you may want to take advantage of the spa services which feature Andean materials. Treatments can be taken in the Spa center or in the privacy of your room.

Overnight at the INKATERRA MACHU PICCHU HOTEL. (B,L,D)

DAY 14 ~ MONDAY ~ MARCH 9
MACHU PICCHU/CUSCO
You will have the morning free to return to Machu Picchu and continue exploring the city. As you will enter the citadel early there will be wonderful opportunities to take photographs. In the afternoon, you will be returning to Cusco via rail, which takes approximately three and a half hours. Upon check in at your hotel, the evening is at leisure.

You will be staying at the charming Aranwa Cusco Boutique hotel; a converted colonial mansion located only a short walk from Cusco’s cathedral, near the airport, and 15 minutes’ drive to the most-visited archaeological sites in the city including Sacsayhuamán, Quenko, Puca Pucará, and Tambomachay. The hotel’s 43 rooms and suites are decorated in the traditional style of a 16th century mansion. The marble-floored bathrooms have large Jacuzzi-style baths, a Scottish shower, and heated floors to keep you warm on the cold Andean nights. All guestrooms and suites are equipped with intelligent oxygen systems that reduce the sense of altitude and prevent altitude sickness syndrome. The multicultural Mishti restaurant is serving a delicious combination of Peruvian and Andean cuisine with a modern twist. You may also enjoy Andean-style tapas in addition to both national and international cuisine at the hotel’s chic Khasikay Bar.

DAY 15 ~ TUESDAY ~ MARCH 10
CUSCO
This morning you will enjoy a guided tour of Cusco. Visit the impressive Colonial Cathedral in Cusco that contains over 400 paintings from the Cusqueña School, beautiful cedar wood carvings such as the choir and the Pulpit, as well as some objects made of silver. Continue to Korikancha (Sun Temple), known today as Santo Domingo Church. During the Incas period, the stones of this temple were covered with gold. Your city tour ends with your visit to the gigantic Inca fortress of Sacsayhuamán. The Incas told the Spaniards that they weren't the ones who built Sacsayhuamán, but "the giants" built it. In their mythology there were huge people living in the Cuzco area, and they carried the huge stone blocks and put them together. The city of Cuzco was built in the shape of a puma, a holy animal in the Inca beliefs. The head of the puma was actually Sacsayhuamán. Sacsayhuamán was a massive fortress of the Incas capable of accommodating 5,000 fighters. Today the complex is in ruins, but we know from chronicles and word-of-mouth from local Quechuans that it was once bigger, higher, and it even had towers. Your afternoon is at leisure. Overnight at the ARANWA CUSCO BOUTIQUE HOTEL. (B)

DAY 16 ~ WEDNESDAY ~ MARCH 11

**THINGS YOU NEED TO KNOW ABOUT ECUADOR, THE GALAPAGOS & PERU**

**Mainland Ecuador**
- Quito is located at an altitude of close to 9,000 feet and may present acclimatization problems for individuals. Many of the visits to volcanoes and the countryside are also at higher altitudes.

**Galapagos**
- Participants must be able to climb in and out of vehicles and boats/pangas unassisted. Bear in mind that some landings are wet, and others are dry, so you need to be able to get in and out of the boats easily enough and proper footwear is essential.
- You should also be able to tolerate nature walks at an easy pace on uneven terrain, sometimes uphill, for three or four hours at a time in heat and humidity. The islands are volcanic and the ground in many cases is jagged and uneven. You should have good stability as falling can cause injury.
- To enjoy this destination to its fullest, travelers must be in good physical health.

**Peru**
- Your visit includes considerable walking/hiking at high altitudes (over 9,000 feet at Machu Picchu and 11,150 feet in Cusco). These walks are uphill, and on uneven ground, at various sites and ancient ruins. You must be in excellent physical health to enjoy this destination to its fullest. These conditions and altitudes may pose problems to participants with particular physical issues and you should always consult your personal physician before embarking on such an adventure.

**General**
- True adventure in travel can sometimes be accompanied by unexpected changes in conditions, itineraries and occasionally your accommodations. Participants should travel with a spirit of adventure and flexibility. Remember to pack your patience and sense of humor! Be willing to look past self-imposed ideals of Western amenities and do not compare these new experiences with your life back home.
- Travel often includes visiting destinations with modest infrastructures and a bending definition of comfort. That being said, some locations are nestled in absolute luxury where pampering is the norm.
- Participants should generally be in good health and prepared to travel in locations without medical facilities.

**Air Schedules**
Choosing the best possible air arrangements for our travelers is always a challenge. We work with many airlines that offer the best level of service, routings and value for our programs. While there may indeed be more direct routings available with another airline, the cost of these flights may not be within the budget that allows us to give you the best value possible. If you prefer to purchase your own international air, please feel free to choose the “land only” rate for this program. *The program begins and ends in Guayaquil, Ecuador. The pre-extension begins in Quito, Ecuador and the post-extension returns from Lima, Peru.*

*Upon registration, you must provide your full legal name as it appears on your passport. In the event an airline ticket is issued with incorrect information you have provided, you will be responsible for charges associated with reissuing the ticket.*

FINAL DOCUMENTS: Final documents and tickets will be sent to you approximately two weeks prior to departure, provided all monies have been paid in full.

TRANSPORTATION

OPTIONAL AIR TRANSPORTATION: Roundtrip, economy-class flights via AMERICAN AIRLINES and/or other IATAN carriers are between PHILADELPHIA, and the destination city noted in the itinerary. Rates are based on special promotional fares; cancellation fees apply once tickets are issued. Departures from other cities in the USA are possible at additional cost; inquire at the time of reservation. Please note that these promotional fares are subject to 10 passengers traveling together on the same airline routing and itinerary. If this minimum is not met, the special group rates are not applicable and it might become necessary to issue instant purchase tickets earlier than when final payment is due in order to take advantage of airfares that are similar to the group rates. Should this occur, you will be contacted with the details.

AIRLINE SEATING: For AMERICAN AIRLINES, we request seats together for the group. All planes are non-smoking. We can request a seating preference on your behalf, however requested seats cannot be guaranteed. Requests should be made in writing no later than 60 days prior to departure. Bulkhead and/or emergency row seats can only be requested at airport check-in on the day of departure. Classic Escapes cannot provide the Comfort Seating Service as this is available on specific flights subject to availability and commercial laws as determined by each airline and at their own discretion. Boarding passes will only be issued at the airport on the day of departure. You may inquire about seat changes during check in, based on availability and is at the sole discretion of airport staff.

FREQUENT FLYER MILEAGE: This program is based on travel via AMERICAN AIRLINES. For a list of the airline’s partners, visit https://www.oneworld.com/member-airlines/overview. Become a member of the mileage program for any of these airlines and present your frequent flyer card at all flight check-ins to obtain credit for your flights. Remember to keep the boarding passes until you receive a statement with the mileage credit.

TRANSFERS: Roundtrip airport transfers are included in the tour for guests arriving on group flights. If travelers make their own air arrangements, they will be subject to extra transfer fees.

TRIP DETAILS

ACCOMMODATIONS: You will marvel at the wonderful accommodations provided throughout your tour. All rooms have private bathroom facilities and air conditioning and/or fans. All rates are based on double occupancy. Most rooms are twin- or double-bedded, but king-size beds are occasionally available and should be requested in advance. Accommodations listed in this itinerary are correct at time of writing, but on rare occasions may be substituted for a different property of comparable quality.

MEALS: All meals as specified in the itinerary. Please notify us if you have special dietary needs or requests, and we will do our best to accommodate.

INOCULATIONS: When it comes to vaccination and disease prevention, we suggest that travelers first review information provided by the U.S. Centers for Disease Control and Prevention (www.cdc.gov/travel) and then review those details with their personal physicians.

WATER: It is always advisable to drink bottled and/or filtered water when traveling overseas. Safe drinking water will be provided to travelers free of charge in the vehicles and during meals.

BAGGAGE: On average, international flights from the USA allow one piece of checked luggage, not exceeding 50 pounds; however, we always recommend that you check your airline’s policy just before departure, as luggage limitations are always subject to change. Despite this weight allowance, we always suggest guests travel light. Also, soft-sided duffel bags are ideal for this tour, as they stow best in vehicles and airplanes with limited space.
